Status of the Deadbeat. No man is wholly free from sin, but to many lesser evils are tolerated that a man should healtate long before be-coming a deadbeat. Criminals are despised and abborred, but to the deadbest all that is coming, as well as the contempt of his fellow men. There is something at once so mean and so littie in taking advantage of the confidence which comes with friendship that the hand of every man is turned minst a deadbeat as soon as his rep-ation is well established. The deadbeat may fundly imagine he is living easy and making money without work, and of ecurse he takes no account of the confidence be violates and the hardships be indicts on others. But, that aside, he really has a harder time than the man who is honest and fair. He is compelled to move a good deal and pence of mind he knows not. Like other types of crooks, he doesn't prosand his finish is more unpleasant then the beginning.-Atchison Globe.

Rounded Knife Blades. Until the seventeenth century knife blades had pointed ends, as can be readily understood when the knife of those days was used for bunting and table purposes indiscriminately. ed end was introduced from France in a curious way. It happened entertain at his table a certain Chancellor Sequier-a vulgar and unmannerly man, who at the close of the meal ded to use his knife as a toothpick. This vulgar act so upset the cardinal that he ordered the end of every knife in his possession to be rounded, and so great was Richelleu's influence that the fashion was soon adopted all over the country. This is the vulgar, but nevertheless interest-ing, origin of the rounded knife of today.-Pearson's Weekly.

A Dinner For Titles. In his autobiography, "A Fragment." Professor Max Muller tells the followng anecdote of the Duke of Wellingon: "His servant had been sent bere to order dinner for him at an out of the way botel, and in order to impress the landlord with the dignity of ming guest he recited a number of the duke's titles, which were very The landlord, thinking that the Duke of Vittoria, the Prince of Waterloo, the Marquis of Torres Vedras and all the rest were friends invited to dine with the Duke of

Walking.

The ordinary man who is employed indoors throughout the day does not walk enough. He needs the fresh air and sunshine of the outdoors, and, no matter how tired he may be, a short same in the open air will rest him. If he has no opportunity to walk during the evening, he ought to do it in the morning. There is no better tonic than a two mile walk before going to work. Some business men who live some distance from their offices or stores walk down regularly every morning and are greatly benefited thereby. No matter how sluggish they may feel on arising, the morning walk puts them in good trim for the day's work. Exercise in the open air starts the blood to circulating in every artery and vein in the entire system, opens up the pores of the skin, so that the waste matter in the body may be set free, ilmbers up the joints and muscles and puts one in shape for the duties of the day .- St. Joseph Gazette

The Meredith Coccanut. George Meredith may not have been an altogether familiar author to the ordinary reader who craves for quick sensation. He never came down to the simplicity of Sherlock Holmes or Captain Kettig. Meredith required an acute and trained intellect before he could be appreciated.

it was once mentioned, in referring to the difficulty which some people experience in reading Meredith's novels, that the Meredith "coconnut" was very bard, but that the milk when reached proved to be very sweet. This joke got into the papers.

Two days afterward a well known from of fruiterers had an inquiry after these cocoanuts from a country customer! The letter was to the effect that, having read somewhere that Meredith's coconnuts have had a large sale lately and that the milk was fashlovable, the writer would like to have a few to try .- Loudon Tatler.

Queer Postal Training. In China whoever wishes to enter the

postal service must give evidence of courage, robustness, power of endurance, ability to traverse great distances over mountains and valleys and through dangerous forests frequented by wild beasts and robbers. After this the applicant is sent into uncappy places, which are considered to be the shodes of evil spirits. When the Chinamen has satisfied the authorities in regard to these matters be is appointed a letter carrier.
